

Newsletter Week 21

Spring 2018

As you know we are always keen to give our children interesting and challenging learning experiences. Along with pupils from St Matthews and Ridgefield this week some of our Year 6 pupils had the wonderful opportunity of working with the poet Michael Rosen on a postcard project exploring the historical aspects of the holocaust. More on the project can be found on the CreatingMyCambridge website.

We are also looking forward to celebrating British Science Week soon and the school has some great plans to stimulate interest and discussion and scientific enquiry. However we would love to have some community involvement too. If you have a role in a science career and could inspire the next generation of scientists please do consider Ms Kamanyire's request below.

Nikki Brown

British Science Week will be taking place 12-16th March. The theme is 'Exploration and Discovery'. "Encouraging young people to think about everyday discoveries and how they affect our lives by exploring science in the world all around us."

Throughout the week children at Morley will be taking part in whole school experiments and assemblies. We would like to offer the children a wide range of experiences, enabling them to **explore** and **discover** the potential of Science.

To help us achieve this we would welcome any support from our wider community - parents and carers who are working in, or have a particular interest in Science. You might want to come in and deliver a talk or practical session, to a class or even the whole school. First hand experiences bring learning alive for children and we aim to provide as many of these as possible.

- Having a Q & A session with a scientist.
- Listening to a scientist talk about a discovery they have made.
- Getting to use new equipment.

If you are able to help us with this then please contact the office.

Thank you, Emilie Kamanyire Class Teacher and Science Lead

The headlice appear to be making an unwelcome return. ..

We advise all parents to regularly check their child's hair and treat any signs of headlice as well as bedding, towels etc. The NHS has some helpful guidance.

Morley School Quiz -

Saturday 3rd Feb. Doors open at 7pm. Quiz starts at 7.30pm.
Morley School Quiz - Saturday 3rd Feb. Doors open at 7pm. Quiz starts at 7.30pm. It's only one week until this year's Morley quiz night!

EITHER find a group of six people to form a team OR come along individually and we will put you together with other people on the night. Everyone brings their own drinks and snacks - some people even bring a 3 course meal! If you've never been before, come along and give it a try. The questions aren't too hard and it's a lot of fun. Tickets are on sale in advance from the school office for £5 per person.

Year 5 had an exciting day last Friday in which 'Mildrith' from Gripping History enabled us to put ourselves in the shoes of 8th Century Scandinavian Northmen. We traded chaotically with families to prepare for a voyage, sadly for some of us only to be swept away in a storm at sea. We then came back to life to undergo weapons training in the afternoon and battled fiercely for our lives on the tennis court. Luckily, most of us have lived to tell the tale.

Class of the Week—Jade Class

The class of the week this week have been impressing their teacher with their excellent descriptions in English. They've been thinking carefully about how to make the reader feel excited and afraid and terrified their teacher. They have also been improving their division skills and getting better at explaining where they went wrong. They have also been making lots of noise in Science, and explained all about vibration. The class of the week this week is Jade class!

Well done to the following children who have impressed their teachers this week:

- Crimson: Jack
- Scarlet: Tomos Stellan
- Burgundy: Aitor
- Ruby: Jacob Amaya
- Topaz; Martha
- Turquoise: Stanley Sophia
- Jade: Violet
- Sapphire: Siena
- Indigo: Vinayak

- 3rd Feb FOM Quiz
- 12th-16th Feb Half Term
- 21st 22nd Feb Parents Evenings
- 5th March Bags to Schools
- 12th March Science Week
- 29th March Last day of term

Please save the date March 7th for FOM key stage 2 disco more information to follow

Dates for the Diary:
